**Educators:** *This announcement may be helpful to your students as you spend more time in online learning environments. Feel free to copy and paste this into your course shell!*

**Course or Portal Announcement:**

Students, I wanted to share a resource with you that you might find helpful right now. [RaiseMe](#) is a free platform that allows you to earn micro-scholarships towards colleges you might want to attend in the future. As you progress through high school, you receive incremental “micro-scholarships” from colleges for your achievements, which you log in a free online portfolio. You have the ability to earn scholarships for attending virtual visits to colleges, your grades, sports, and more. Students on RaiseMe also receive resources to help navigate the challenges of applying to college and understanding financial aid. If any of this sounds interesting to you, you can join the RaiseMe community at [www.raise.me](http://www.raise.me)

**[OR]**

Students,

We're excited to share with you that **{high school or district}** has partnered with RaiseMe! On RaiseMe, you can create a free portfolio of your academic and co-curricular achievements that allow you to earn micro-scholarships from four year colleges. You can earn these incremental scholarships for good grades, community service, and even for working to support your family. Over time, these small scholarships add up to larger scholarships, showing you how all of your decisions you make now can impact your future.

You'll have transparency into the minimum amount of scholarships you can expect before you apply. That way, there are no surprises for you, or for your bank account! Here's how it works:

1. Create a free portfolio at [raise.me](http://raise.me)
2. Use the “colleges” tab to research different schools. Where are they? How much do they cost? Do they have the program you want?
3. Follow schools that seem like a good fit
4. Enter your college achievements to date
5. Keep your profile updated throughout your time at **{high school or district}**
6. That's it!

Your earnings are instantly displayed in your RaiseMe portfolio and represent the minimum amount of merit scholarships you'll receive from schools you are following if and when you enroll. Remember, college planning is a lot of small achievements that you make over time, and we want to help you all along your journey, not just at the end.

We encourage you to create a free profile today!
